LET'S TALK ABOUT HIS CHOICES

The Invisible Men project shows you words used by men to review their experiences with women in prostitution. Without seeking to prove, disprove or debate choice on the part of the women described, you are invited to consider:

What do you think of HIS choice?

Within
minutes we were doing
all kinds of stuff (no inhibitions
here, it really is anything goes!) which
didn't stop for the rest of our time together
Snogging throughout (fantastic kisser!), the
best BBBJ* you could imagine, sex in all
manner of positions and holes ;o), filthy
talk, fisting (seriously, I still don't know
how I got my fist into her tiny little body),
MASSIVE toys, spitting, poppers, orgasm
after orgasm after orgasm - basically
this was heaven! Proper nasty, dirty
sex - she just loves to be pinned
down and fucked as hard as
possible in every way
imaginable!

strokes, starts to push me away complaining that I am too big (bollocks). Many very careful strokes later, I eventually come, no help from her. She mouths off afterwards about cervical cancer etc. If she is worried about that she is in the wrong job.

I wanted to go for a CIM* finish, she was having none of that, and wanted me to splash the mummies instead. We compromised

the maimettes instead. We compromised
on a sort of poor man's facial, where I was
supposed to jizz her jawbone while she looked
the other way. Then mopping up, followed
by a decent enough massage. Apart from the
CIM disappointment, the thing that struck
me was the absence of the usual cheerful
welcoming manner I enjoy with most other
Thai girls. She did flash a pretty smile once
or twice but mostly made it glumly
obvious that my visit was just a
chore for her. So although I got
my semen extracted, I
couldn't call that
a joyful hour

Yes
she will endure hard
penetration. I say endure because
she does not engage with you on any
level, to her it is just a matter of going
through the motions. This is one of those
punts that promises the world but delivers a
hamlet. She used her hands
frequently to block deep penetration on the
BJ, I eventually got tired of trying to move
them, penetration was good in doggy, she
failed to swallow on the money shot. I made
the mistake of trusting her to do it, as I shot
into her mouth from a distance, it was
spat out onto her chest. Throughout
the punt, I was not successful in
trying to animate her beyond
her cold mechanical
stupor.

was fine and after a few minutes of deep
pounding, managed to fill the red condom
with 3-4 days worth of my spunk,
during which time she was
complaining in "foreign"
and fidgeting
around!

Got
her to stand up and
indicated that she should take her
skirt (and shorts and tights and socks!!)
off, which she begrudgingly did and I got

£30

her to lie on the bed with her legs open so I
could see her cunt. Neat, tidy, very smooth
and still wet inside from her last
punter (I guess?) Licked her bud and she
pushed me away, so did again and she
obviously did not want me to do that. Stuck
my 2 fingers deep inside to feel her cervix,
defo tight hole, so no kids. Fingered her
hard and licked her again. Cock nice
and hard now so went for the
"EXPECTED" shag and she said
"NO"! Sorry, what do you
mean NO, this is
what I paid for

Then
I wanted to finger her
pussy but it was a no-go area then
tried rubbing her clit but she said it was
sore so couldn't rub it as hard as I liked,
did mish* and finally exploded. I was sure
that we still had time left but she said she
was busy and before I knew it she got
changed and disappeared saying she's gone
to freshen up for next client whilst leaving
me on my own in the room to get changed
which pissed me off a bit as I thought it
was a bit of lack of respect whilst I
respected her I mean I could have
nicked tons of stuff (not
that I did) without
anyone knowing

I stood up and started to wank myself over her prone, disinterested body and gained enough stiffness to get into her in doggy position. Even then, it was "Not so hard" and "Not so

quick". I pulled out and attempted to lick her

rather attractive pussy but she didn't want to know, so I pushed back in. I was by now losing any passion I had mustered earlier. I did persuade her to reluctantly suck me a bit more but it was ineffective by now and I gave up after being told for the nth time to be quick. I took off the condom and asked her to wank me to conclusion but she couldn't even do this.

I eventually got my
cock in to her. You know how
sometimes, a tight cunt just feels like
you are trying to ram your cock between
the pages of a heavy book with weights on it,
well that was how I was! She managed to turn
herself so I could barely get a
smooth entry and it felt cr*p. Turned her
over, much to her disgust and lay on top of
her, another fuss and bother! She seemed to
develop extra arms and elbows all of which
were pressing into my chest and ribs in a
very uncomfortable fashion, stopping
me getting near her! After about 2
minutes of that, I said "OK, you
win, just wank me off"
and at last she
smiled!!!!

Plump
dyed blonde aged
over 40. Out looking for a fuck
early on a Sunday morning I found
two places shut and not open till 11:00.
With my available time running out I
went for the only available place. She
was OK. Quick massage, condom on,
cock suck, fuck with all the expected
noises and ejaculation. You can't expect
a days pleasure with Michelle Pfeiffer
for £20 but it's a bit hit and miss
at this establishment. Some of
the girls are lovely but
most are just holes
to fuck.
